Experience

Undergraduate Developer & Problem Solver

2023 – Present

Self-Driven Learning

Remote

- Solved 50+ LeetCode problems focused on Data Structures and Algorithms.
- Strengthened concepts in arrays, linked lists, stacks, queues, trees, recursion, and sorting algorithms.
- Applied Object-Oriented Programming using C++, Java, and Python.
- Built responsive user interfaces using HTML, CSS, and JavaScript.
- Developed backend functionality using PHP with SQL-based databases.

Education

VIT Bhopal University

Bhopal, India

Bachelor of Technology (B.Tech)

Sept 2023 – June 2027

- CGPA: 9.00

Projects

Rabies Shield

Machine Learning, Python, Data Science

- Developed a system to monitor stray and domestic dogs and track rabies vaccination timelines.
- Identified and flagged potential rabies risks using vaccination and health indicators.
- Implemented a risk-flagging mechanism to detect overdue or missing vaccinations.
- Maintained structured vaccination and health records for timely intervention.

Parkinson's Disease Detection using Voice Analysis

Python, Machine Learning, Streamlit, Librosa

- Built a machine learning model to detect Parkinson's disease from voice recordings.
- Used Librosa for acoustic feature extraction and trained a Decision Tree classifier.
- Developed an interactive Streamlit interface for uploading voice samples and displaying predictions.
- Evaluated model performance using standard accuracy and reliability metrics.

Technical Skills

Programming Languages: C++, Java, Python, JavaScript, PHP

Frontend: HTML, CSS, Responsive Design

Machine Learning & Data Science: NumPy, Pandas, Matplotlib, Scikit-learn, Feature Engineering

Database: MySQL, SQL

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Problem Solving

Tools: Git, VS Code, Jupyter Notebook

Certifications

- Bits and Bytes of Computer Networking – Coursera
- MATLAB Certified – MathWorks
